# Macrofungi Distribution of Gevne Valley 

Giyasettin KAȘIK, Sinan AKTAŞ, Celâleddin ÖZTÜRK, Hasan Hüseyin DOĞAN<br>Selçuk University, Science Faculty, Biology Department, 42075, Campus/Konya, Turkey

#### Abstract

The material of this study composes macrofungi specimens have been collected from different localities in Gevne valley between 2000-2003 particularly during the months of autumn and spring

As a result of the field and laboratory studies, 110 taxa and 57 genus belong to 4 classes and 33 families have been identified. These are 12 species belong to Ascomycota and 98 species belong to Basidiomycota.

Key Words: Macrofungi, Distribution, Valley, Gevne, Turkey.

## Gevne Vadisi'nin Makrofungus Dağılımı

Özet<br>Bu çalıșmanın materyalini oluşturan makrofungus türleri, 2000-2003 yılları arasında özellikle ilkbahar ve sonbahar aylarında Gevne Vadisinin farklı lokalitelerinden toplanmıştır.<br>Arazi ve laboratuar çalışmaları sonucunda, 33 familya ve 4 sınıfa ait 57 cins ve 110 takson belirlenmiştir. Bunlardan 12 tür Ascomycota, 98 tür Basidiomycota'ya aittir.

Anahtar Kelimeler: Makrofungus, Dağılım, Vadi, Gevne, Türkiye

## Introduction

Gevne valley is a place which is situated between Mediterranean and Central Anatolia (Map 1). The location of Gevne valley is between Konya and Antalya provinces, and it also situated along the Gevne stream. The length of the area is about 25 km and the width is 1000 m . The climate is typically Mediterranean region.

In the study area, the deciduous trees presents Quercus cerris L. var.cerris, Q. trojana P.B.Webb., Populus sp. and Salix sp. The coniferous trees presents Abies cilicica (Ant. \& Kotscy) Carr. subsp. isaurica Coode \& Cullen, Cedrus libani A. Rich., Pinus nigra Arn. subsp. pallasiana (Lamb.) Holumboe, Pinus brutia Ten, Juniperus drupacea Lab., J. oxycedrus L. subsp. oxycedrus and J. excelsa Bieb. (Duman et al 2000).

## Materials and Methods

Macrofungi samples were removed from the ground with great care to avoid damage to the base and other parts (stipe, hymenium etc.). Soil was removed using a soft brush. Samples were placed in separate wicker containers to avoid mixing. Colour, locality and characteristics of habitat etc. were noted during the collection. Insecticide spray was used for protect to fresh samples for insect larvae damage. In the laboratory, morphological features and the spore properties of dry and fresh macrofungi specimens were studied and they were identified using identification keys (Watling, 1973). The orders determined using Moser (1983) and other related literature (Krieger, 1967; Phillips, 1981; Watling, 1982; Michael et al, 1983-1987; Breitenbach \& Kränzlin, 1984-1995; Henning \& Kreisel, 1987; Pegler, 1987; Dähncke, 1988, 1993; Watling \& Gregory, 1989; Bresinsky \& Besl, 1990; Ellis \& Ellis, 1990;

[^0]Grünert \& Grünert, 1984, 1991; Pacioni, 1993; Jordan, 1996; Smith \& Smith 1996; Gerhardt, 1997; Pace, 1998 ). After macrofungi samples were identified and dried, they were preserved in polythene bags containing 5 g thymol crystals.

All macrofungi samples are kept at Selçuk University, Fungarium of Mushroom Application and Research Centre, in Konya.

## Results

The collectors surnames (Kaşık, Aktaş, Öztürk, Doğan) are shortened as K, A, Ö, D and given with collecting number.

## ASCOMYCOTA

## Pezizomycetes

Pezizales
Morchellaceae

1. Morchella conica var. conica Pers.

Kaplanhanı village, in pine forest, 11.05.2002, K, A, Ö, D 1553.

## 2. Morchella deliciosa Fr.

The first bridge previous from Beyreli village, in pine forest, $11.05 .2002, \mathrm{~K}, \mathrm{~A}, \mathrm{O}, \mathrm{D} 1560$.
3. Morchella esculenta var. umbrina (Boud.) S. Imai

Kaplanhanı village, in pine forest, 11.05.2002, K, A, Ö, D 1546.
4. Morchella vulgaris (Pers.) Boud.

Kaplanhanı village, in pine forest, 11.05.2002, K, A, Ö, D 1552.
5. Mitrophora semilibera (DC:Fr.) Lév.

Kaplanhanı village, among meadow, 11.05.2002, K, A, Ö, D 1554.

Helvellaceae
6. Helvella acetabulum (L.) Quél.

Karapınar village, in fir forest, 19.05.2001, K, A, Ö, D 1316,1331. Between Sarımut village-Şifalı su place, in pine forest, 22.04.2002, K, A, Ö, D 1489.
7. Helvella leucomelaena (Pers.) Nannf.

Kaplanhanı village, in pine forest, 11.05.2002, K, A, Ö, D 1551. Frontier of Alanya district, in pine forest, 19.05.2001, K, A, Ö, D 1278.

## Pezizaceae

8. Peziza granulosa Schumach.

Karapınar village, in pasture, 22.04.2002, K, A, Ö, D 1477.

Pyronemataceae
9. Geopora sumneriana (Cooke) M. Torre

Between Sarımut village-Sifalı su place, in oak forest, 22.04.2002, K, A, Ö, D 1468.
10. Scutellinia scutellata (L.: St. Amans) Lambotte

Between Sarımut village-Şifalı su place, in oak forest, 22.04.2002, K, A, Ö, D 1489.

## Caloscyphaceae

11. Caloscyphafulgens (Pers.) Boud.

Karapınar village, in fir forest, 22.04.2002, K, A, Ö, D 1467. The first bridge previous from Beyreli village, in fir forest, 11.05.2002, K, A, Ö, D 1559.

## Leotiomycetes

Helotiales
Helotiaceae
12. Bisporella citrina (Batsch) Korf \& S.E. Carp.

Sarımut village, on dead branche of oak, 22.04.2002, K, A, Ö, D 1480.

## BASIDIOMYCOTA

Dacrymycetes
Dacrymycetales
Dacrymycetaceae
13. Dacrymyces variisporus Mc Nabb

Sarımut village, on dead branche of pine, 22.04.2002, K, A, Ö, D 1474.

## Agaricomycetes

Gomphales
Gomphaceae
14. Ramaria flava (Schaeff.: Fr.) Quél.

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 963. The first bridge previous from Beyreli village, in fir-pine mixed forest, 11.05.2002, K, A, Ö, D 1563. Kuş Yuvası place, in pine forest, 11.05.2002, K, A, Ö, D 1544.
15. Ramaria flavescens (Schaeff.) Petersen

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 984.

## Thelephorales

## Bankeraceae

16. Sarcodon imbricatus (L.) P. Karst.

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 971, 987.
17. Boletopsis leucomelaena (Pers.) Fayod

Beyreli village, in pine forest, 09.12.2000, K, A, Ö, D 1005. Frontier of Alanya district, in pine forest, 19.11.2000, K, A, Ö, D 963. Elmalı su place, 17.11.2001, K, A, Ö, D 1393.

## Polyporales

Ganodermataceae
18. Ganoderma carnosum Pat

Elmalı su place, on stump of fir, 17.11.2001, K, A, Ö, D 1394.

Hymenochaetales
Hymenochaetaceae
19. Phellinus hartigii (Allesch. \& Schnabl) Pat.

Frontier of Alanya district, on trunk of fir, 19.11.2000, K, А, Ö, D 991.
20. Phellinus igniarius (L.) Quél.

Gevne place, on trunk of willow, 19.11.2000, K, A, Ö, D 990. Şifalı su place, on trunk of willow, 11.05.2002, K, A, Ö, D 1557.
21. Porodaedalea pini (Brot.) Murrill

Beyreli village, on trunk of pine, 09.12.2000, K, A, Ö, D 1000.

Polyporales
Polyporaceae
22. Pyrofomes demidoffii (Lév.) Kotl. \& Pouzar

Kaplanhanı, on trunk of juniper, 11.05.2002, K, A, Ö, D 1548.
23. Fomes fomentarius (L.) J. Kickx f.

Şifalı su place, on trunk of poplar, 11.05.2002, K, A, Ö, D 1556.
24. Trichaptum abietinum (Dicks.) Ryvarden

Frontier of Alanya district, on dead branche of fir, 19.11.2000, K, A, Ö, D 988. Beyreli village, on dead branche of fir, 09.12.2000, K, A, Ö, D 1004. Junction of Kestel-Gökbel plateau, on dead branche of fir, 17.11.2001, K, A, Ö, D 1432.

## Gloeophyllales

## Gloeophyllaceae

25. Gloeophyllum trabeum (Pers.) Murrill

Elmalı su place, on dead branche of fir, 17.11.2001, K, A, Ö, D 1392.

## Geastrales

## Geastraceae

26. Geastrum fimbriatum Fr

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 974, 980, 992. Junction of Sarıveliler town, in pine forest, $09.12 .2000, \mathrm{~K}, \mathrm{~A}, \mathrm{O}$, D 1021. Beyreli village, in fir forest, 18.11.2001, K, A, Ö, D 1449.
27. Geastrum pectinatum Pers.

Tosmur plateau, in fir-pine mixed forests, 18.11.2000, 18.11.2001, K, A, Ö, D 965, 1465. Beyreli village, in fir-pine mixed forests, 09.12 .2000 , K, A, Ö, D 1007. Elmalı su place, in fir forest, 17.11.2001, K, A, Ö, D 1387.
28. Geastrum rufescens Pers.

Beyreli village, Çayarası place, in fir forest, 09.12.2000, K, A, O, D 1008, 1031

## 29. Geastrum schmidelii Vittad.

Junction of Sarıveliler town, in pine forest, 17.11.2001, K, A, Ö, D 1443.
30. Geastrum triplex Jungh.

Elmalı su place, in fir forest, 17.11.2001, K, A, Ö, D 1386.

Boletales
Rhizopogonaceae
31. Rhizopogon roseolus (Corda) Th. Fr.

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1388. Karapınar village, in pine forest, 19.05.2001, K, A, Ö, D 1321.

## Boletaceae

32. Boletus edulis Bull.

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 976.

## Suillaceae

33.Suillus luteus (L.) Roussel

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1378.

Gomphidiaceae
34. Chroogomphus helveticus (Singer) M.M. Moser

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1396.
35. Chroogomphus rutilus (Schaeff.) O.K. Mill.

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1395.

Agaricales
Schizophyllaceae
36. Schizophyllum commune Fr.

Between Sarımut village-Şifalı su place place, on dead wood of oak, 22.04.2002, K, A, Ö, D 1499.

## Pleurotaceae

37. Pleurotus ostreatus (Jacq.: Fr.) Kumm.

Beyreli village, on trunk of poplar, 18.11.2001, K, A, Ö, D 1458.

Hygrophoraceae
38. Ampulloclitocybe clavipes (Pers.) Redhead, Lutzoni, Moncalvo \& Vilgalys

Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1419.
39. Hygrophorus erubescens (Fr.) Fr.

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 972.

Agaricaceae
40. Agaricus campestris L.

The first bridge previous from Beyreli village, in pasture, 11.05.2002, K, A, Ö, D 1562.
41. Agaricus urinascens (Jul. Schäff. \& F.H. Møller) Singer var. urinascens

Tosmur plateau, in pasture, 18.11.2000, K, A, Ö, D 986.
42. Agaricus pampeanus Speg.

Kaplanhanı village, in pasture, 11.05.2002, K, A, Ö, D 1545.
43. Coprinus comatus (O.F. Müll.) Pers.

Kuş yuvası place, in pasture, 11.05.2002, K, A, Ö, D 1481 .
44. Bovista plumbea Pers.

Şifalı su place, in pasture, 11.05.2002, K, A, Ö, D 1555.
45. Lycoperdon molle Pers.

Frontier of Alanya district, in pine forest,
19.11.2000, K, A, O, D 989.
46. Lycoperdon perlatum Pers.

Beyreli village, in fir-pine mixed forest,
09.12.2000, 18.11.2001, K, A, Ö, D 1013, 1466.
47. Lycoperdon utriforme Bull.

Çayarası place, in pasture, 09.12.2000, K, A, Ö, D 1028 .

Tricholomataceae
48. Clitocybe gibba (Pers.: Fr.) P. Kumm.

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1363 .
49. Lepista nuda (Bull.) Cooke

Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1400.
50. Melanoleuca cognata (Fr.) Konr. \& Maubl.

Kaplanhanı village, in fir forest, 11.05.2002, K, A, Ö, D 1547.
51. Melanoleuca excissa (Fr.) Singer

Sarımut village, in pasture, 22.04.2002, K, A, Ö, D 1487.
52. Melanoleuca humilis (Pers.) Pat.

Karapınar village, in pasture, 17.11.2001, K, A, Ö, D 1442.
53. Melanoleuca melaleuca (Pers.) Murrill

The first bridge previous from Beyreli village, in fir-pine mixed forest, 11.05.2002, K, A, Ö, D 1561.
54. Melanoleuca stridula (Fr.) Singer

Junction of Kestel-Gökbel plateau, in pasture, 17.11.2001, K, A, Ö, D 1407. Sarımut village, in pasture, 22.04.2002, K, A, Ö, D 1476.
55.Omphalina rivulicola (J. Favre) Lamoure

Beyreli village, in meadows, 09.12.2000, K, A, Ö, D 1012.
56. Tricholoma apium Jul. Schäff.

Tosmur plateau, in pine forest, 18.11.2000, K, A, Ö, D 969 .
57. Tricholoma batschii Gulden

Beyreli village, in pine forest, 09.12.2000, K, A, Ö, D 1011. Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1391.
58. Tricholoma imbricatum (Fr.) P. Kumm.

59. Tricholoma myomyces (Pers.) J.E. Lange

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 973. Beyreli village, in pine forest, 09.12 .2000 , K, A, Ö, D 1006, 1015. Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1417. The first bridge previous from Beyreli village, in pine forest, $11.05 .2002, \mathrm{~K}, \mathrm{~A}, \mathrm{O}, \mathrm{D}$ 1564.
60. Tricholoma radotinense Pilat \& Charvat

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 958,962. Beyreli village, in pine forest, $09.12 .2000,18.11 .2001$, K, A, Ö, D 1016, 1464. Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1423.
61. Tricholoma scalpturatum (Fr.) Quél.

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 961, 979, 982. Beyreli village, in fir-pine mixed forest, 09.12.2000, K, A, Ö, D 1009.
62. Tricholoma stans (Fr.) Sacc.

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1422.
63. Tricholoma virgatum (Fr.) P. Kumm.

Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1428.

## Physalacriaceae

64. Armillaria tabescens (Scop.) Emel

Sarımut village, on stump of oak, 17.11.2001, K, A, Ö, D 1441.
65. Oudemansiella melanotricha (Dörfelt) M.M. Moser

Beyreli village, Çayarası place, on stump of fir, 09.12.2000, K, A, Ö, D 998,1033. Karapınar village, Sarımut village, on stump of fir, 11.05.2002, K, A, Ö, D 1433, 1438.
66. Strobilurus esculentus (Wulfen) Singer

The first bridge previous from Beyreli village, in pine forest, 11.05.2002, K, A, Ö, D 1565.
67. Strobilurus stephanocystis (Kühner \& Romagn. ex Hora) Singer

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1385.

Marasmiaceae
68. Gymnopus ocior (Pers.) Antonín \& Noordel.

Beyreli village, in fir-pine mixed forest, 18.11.2001, K, A, Ö, D 1448.

## Mycenaceae

69. Mycena hiemalis (Osbeck) Quél.

Junction of Kestel-Gökbel plateau, in oak forest, 17.11.2001, K, A, Ö, D 1403.
70. Mycena inclinata (Fr.) Quél.

Çayarası place, in oak forest, 09.12.2000, K, A, Ö, D 1030. Karapınar village, in oak forest, 17.11.2001, K, A, Ö, D 1431.
71. Mycena metata (Secr. ex Fr.) P. Kumm.

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1401,1402.
72. Mycena parabolica (Fr.) Quél.

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1379.
73. Mycena polygramma (Bull.) Gray

Beyreli village, in pine forest, 18.11.2001, K, A, Ö, D 1452.
74. Mycena sanguinolenta (Alb. \& Schwein.) P. Kumm.

Beyreli village, in fir-pine forest, 09.12.2000, K, A, Ö, D 1017.
75. Mycena silvae-nigrae Maas Geest. \& Schwöbel

Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1404.
76. Xeromphalina campanella (Batsch) Maire

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1398. The first bridge previous from Beyreli village, in pine forest, $11.05 .2002, \mathrm{~K}, \mathrm{~A}, \mathrm{O}, \mathrm{D} 1558$.

## Psathyrellaceae

77. Coprinopsis atramentaria (Bull.) Redhead, Vilgalys \& Moncalvo

Sarımut village, in pasture, 22.04.2002, K, A, Ö, D 1479.
78. Coprinellus micaceus (Bull.) Vilgalys, Hopple \& Jacq. Johnson

Kaplanhanı, on dead wood of oak, 11.05.2002, K, A, Ö, D 1550.
79. Psathyrella candolleana (Fr.) Maire

Near the Gevne bridge, in meadows, 19.05.2001, K, A, Ö, D 1317.
80. Psathyrella teprophylla (Romagn.) M.M. Moser

Near the Gevne bridge, in meadows, 19.05.2001, K, A, Ö, D 1318.

## Bolbitiaceae

81. Conocybe semiglobata Kühner \& Watling

Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1409.

## Strophariaceae

82. Agrocybe dura (Bolton) Singer

Near the Gevne bridge, in meadows, 19.05.2001, K, A, Ö, D 1319.
83. Agrocybe paludosa (J.E. Lange) Kühner \& Romagn.

Sarımut village, in meadows, 19.05.2001, K, A, Ö, D 1309.
84. Stropharia semiglobata (Batsch) Quél.

Beyreli village, in meadows, 18.11.2001, K, A, Ö, D 1455.
85. Hebeloma eburneum Malençon

Beyreli village, in pine forest, 09.12.2000, K, A, Ö, D 1002.
86. Hebeloma mesopheum (Pers.) Quél.

Karapınar village, in fir forest, 20.05.2001, K, A, Ö, D 1320 .
87. Hebeloma sinapizans (Fr.) Sacc.

Karapınar village, in fir forest, 20.05.2001, K, A, Ö, D 1323
88. Galerina atkinsoniana A.H.Sm.

Elmalı su place, in fir forest, 17.11.2001, K, A, Ö, D 1362.
89. Galerina badipes (Fr.) Kühner

Junction of Sarıveliler town, on cone of pine, 19.05.2001. K, A, Ö, D 1295.
90. Galerina clavus Romagn.

Elmalı su place, in fir forest, 17.11.2001, K, A, Ö, D 1376.
91. Gymnopilus penetrans (Fr.) Murrill

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 975.

## Inocybaceae

92. Inocybe abietis Kühner

Karapınar village, in fir forest, 20.05.2001, K, A, Ö, D 1335.
93. Inocybe rimosa (Bull.) P. Kumm.

Junction of Sarıveliler town, in pine forest, 09.12.2000, K, A, Ö, D 1022.

## 94. Inocybe fuscidula Bres.

Karapınar village, in pine forest, 20.05.2001,

K, A, Ö, D 1330.
95. Inocybe geophylla (Fr.) P. Kumm.

Elmalı su place, in fir forest, 17.11.2001, K, A, Ö, D 1365 .
96. Inocybe hirtella Bres.

Elmalı su place, in fir forest, 17.11.2001, K, A, Ö, D 1364 .
97. Inocybe erubescens A. Blytt

Junction of Kestel-Gökbel plateau, in pine forest, 17.11.2001, K, A, Ö, D 1412.
98. Inocybe whitei (Berk. \& Broome) Sacc.

Beyreli village, in fir-pine mixed forests, 09.12.2000, K, A, Ö, D 1026.
99. Inocybe queletii Konrad

Near the Gevne stream, in fir-pine mixed forest, 19.05.2001, K, A, Ö, D 1315.

## Cortinariaceae

100. Cortinarius albidus subsp. europaeus (M.M. Moser) Quadr.

Tosmur plateau, in fir-pine mixed forest, 18.11.2000, K, A, Ö, D 977, 985. Frontier of Alanya district, in pine forest, 19.11.2000, K, A, Ö, D 994.
101. Cortinarius flavopallidus (M.M. Moser) M.M. Moser

Beyreli village, in fir-pine mixed forests, 09.12.2000, K, A, Ö, D 999.
102. Cortinarius melanotus Kalchbr.

Tosmur plateau, in fir-pine mixed forests, 18.11.2000, K, А, Ö, D 964, 968, 970.
103. Cortinarius subvalidus Rob. Henry.

Beyreli village, in fir-pine mixed forests, 09.12.2000, K, A, Ö, D 1001.

## Russulales

Russulaceae
104. Lactarius delicious (L.) Gray.

Frontier of Alanya district, in pine forest, 19.05.2001, K, A, Ö, D 1281.
105. Lactarius salmonicolor R. Heim \& Leclair

Elmalı su place, in pine forest, 19.11.2001, Elmalı su, K, A, Ö, D 1373.

## 106. Russula delica Fr.

Elmalı su place, in pine forest, 19.11.2001, Elmalı su, K, A, Ö, D 1368.
107. Russula emetica (Schaeff.) Pers.

Frontier of Alanya district, in pine forest, 19.05.2001, K, A, Ö, D 1280.
108. Russula erythropus Fr. ex Pelt.

Elmalı su place, in pine forest, 17.11.2001, K, A, Ö, D 1397.

## Stereaceae

109. Stereum hirsutum (Willd.) Pers.

Tosmur plateau, on trunk of oak, 18.11.2000, K, A, Ö, D 981. Between Sarımut village-Şifalı su place place, on dead branche of oak, 22.04.2002, K, A, Ö, D 1491.
110. Stereum sanguinolentum (Alb. \& Schwein.) Fr.

Beyreli village, on dead of branche of oak, 19.05.2001, K, A, Ö, D 1277.

## Discussion

With this study, 110 macrofungi taxa have been determined. Of these, 12 belong to Ascomycota and 98 belong to Basidiomycota.

The distrubition of 110 species into the families are as follows:Pezizaceae, Caloscyphaceae, Helotiaceae, Dacrymycetaceae, Ganodermataceae, Gloeophyllaceae, Boletaceae, Suillaceae, Schizophyllaceae, Rhizopogonaceae, Pleurotaceae,

Marasmiaceae, Bolbitiaceae 1; Helvellaceae, Pyronemataceae, Gomphaceae, Gomphidiaceae, Bankeraceae, Hygrophoraceae, Stereaceae 2; Hymenochaetaceae, Polyporaceae 3; Physalacriaceae, Psathyrellaceae, Cortinariaceae 4; Morchellaceae, Geastraceae, Russulaceae 5; Agaricaceae, Mycenaceae, Inocybaceae 8; Strophariaceae 10 and Tricholomataceae 16.

The distribution of species as their habitats are given table 1.

As the Table 1, most of the samples have been determined in pine forest (55) and the most widespread family is Tricholomataceae. The member of Tricholomataceae family grows in pine forest (13), fir-pine mixed forest (5), fir forest (5) and pasture-meadow (5). Of this, Strophariaceae family follows as fir-pine mixed forest (1), fir forest (4), pine forest (2) and pasture-meadow (3).

The other families members separately grows on the different habitats and they are not abundant on specific habitats.

## Acknowledgements

This project, which is project number 2000/028, has been supported by the Selçuk University Research Council.
